It is noted that the cited foreign patent document is not in the English language. A concise explanation of the relevance thereof, as required by 37 C.F.R. § 1.98(a)(3)(i), is as follows: The reference describes a process including providing a semiconductor wafer, wherein a plurality of chips are formed thereon and a plurality of bonding pads are formed on the central area of the chip; cutting adjacent chips so as to form a recess on the edge of a second surface and a recess on the edge of a first surface of each chip; cutting the wafer so as to form a plurality of single chips; forming a solder on each bonding pad; and encapsulating the chip and the recesses with resin.

The applicants respectfully request that this reference be made of record in the present application.

The applicants' undersigned attorney may be reached by telephone at 212-551-2625. All correspondence should continue to be directed to the address given below, which is the address associated with Customer Number 27267.

Respectfully submitted,
